TO THE CALL FOR PAPERS
38TH OTDK
BIOLOGY SECTION**

Evaluation criteria for the presentation and the discussion

Evaluation criteria for the oral presentation:	Maximum score
<p><i>1. Introduction to the topic</i> Did the presenter give a clear, comprehensive picture of the background, purpose and significance of the research?</p>	25
<p><i>2. Methodology, presentation of results</i> Did the presenter adequately present their research methods, results and conclusions?</p>	25
<p><i>3. Formal evaluation of the presentation</i> Evaluate the participant's presentation style, correct use of technical language, appropriate use of time, clarity and technical quality of the presentation.</p>	25

Each criterion is scored on a scale of 1 to 5 and then multiplied by the multiplication factors set out in the following table before summing up the sub-scores.

Criterion	Scale	Multiplier factor	Possible values
Introduction (1.)	1-5	5	5 / 10 / 15 / 20 / 25
Presentation of the research (2.)	1-5	5	5 / 10 / 15 / 20 / 25
Form (3.)	1-5	5	5 / 10 / 15 / 20 / 25

Evaluation criteria for the debate	Maximum score
<p><i>1. Professional knowledge</i> How is the presenter's professional confidence in the subject? Assess the speaker's debating skills.</p>	40
<p><i>2. The individual contribution of the TDK presenter(s) to the results described in the application</i> The panel members should form an opinion, based on the presentation and through the questions, on the credibility of the author's contribution and the contribution of the presenter(s) to the research results presented. If the performer convinces the panel jury members, their questions are answered satisfactorily in all respects and the panel members consider the performer's work to be outstanding, they should award maximum points. This is where the participant's intellectual contribution to the research design can be assessed, where relevant.</p>	35

Each criterion is scored on a scale of 1 to 5 and then multiplied by the multiplication factors set out in the following table before summing up the sub-scores.

Criterion	Scale	Multiplier factor	Possible values
Discussion (3.)	1-5	8	8 / 16 / 24 / 32 / 40
Individual contribution (5.)	1-5	7	7 / 14 / 21 / 28 / 35
