The National Association for Student Research (OTDT), the Section Committee for Law and Political Science of the OTDT and the organizing Faculty of Law of the Eötvös Loránd University hereby announce the Law and Political Science Section of the 38th National Student Research Conference under the conditions of the following call.

The conditions for participation and registration in the Law and Political Science Section of the 38th OTDK are set out in the General Call of the 38th OTDK and in this Call of the OTDT Law and Political Science Committee.

2. Eligibility Criteria

2.1 Who is eligible to participate

In the 38th National Student Research Conference (OTDK), **TDK papers and authors** (in the case of multi-author TDK papers, all authors) **may participate that meet the conditions specified in the General Call for the 38th National Student Research Conference** (details are provided in Supplement 2 of the General Call for the 38th OTDK.)

If a **TDK paper has multiple authors**, it can only be presented if **all authors are registered for the 38th National Student Research Conference (OTDK)** and **all of them participate in the presentation** (exceptions to this may only be made in exceptional cases deserving special consideration, and solely with the individual approval of the Law and Political Science Section Committee).

Study circles from cross-border universities and colleges can participate in the 38th OTDK under the same professional conditions as those in Hungary. Details are available in the General Call of the 38th OTDK.

The conference is also open to **secondary school students** in Hungary and across borders who present their research results at conferences of higher education institutions or national high school science student conferences (for details see Supplement 4 of the General Call for the 38th OTDK) and are nominated for the OTDK. A detailed description of the participation of secondary school students is available in the General Call of the 38th OTDK.

A thesis produced in the course of continuous TDK activity during BA and BSc education, can be entered to the 37th OTDK, if it meets the format and content requirements of the Call and its Supplements and has been presented at a student research conference either during the BA/BSc or the subsequent MA/MSc training and has there been delegated to the OTDK.

Compulsory assignments prescribed in the curriculum during university or college studies, seminar papers, as well as – in the case of students in integrated master's or MA/MSc programs – theses already defended by the time of the institutional TDK conference may not be submitted to the National Student Research Conference.

Students who, at the time of the institutional TDK conference, already hold a previously obtained PhD/DLA degree are not eligible to participate in the 38th OTDK.

Students who already hold a degree obtained in a master's or integrated master's program and who, at the time of the institutional TDK conference, are enrolled in doctoral training alongside their graduate studies may not participate in the 38th OTDK with a TDK paper on the same topic as their doctoral research. These students must declare the topic of their doctoral research during the application to the 38th OTDK. A student who wrote their TDK paper during their integrated master's program or master's studies and had not yet established a PhD student status at the time of the institutional/faculty TDK conference may participate in the 38th OTDK as an author.

An instructor, a student holding a PhD/DLA degree, or a student enrolled in doctoral training may not participate as an opponent in the 38th OTDK Law and Political Sciences Section; nor may the author of an accepted TDK paper act as an opponent within their own session.

Number of TDK papers that may be submitted by participating institutions:

3.2. Rules for the establishment of the final session assignment

The fundamental rules for the establishment of the final session assignment are included in the General Call of the 38th OTDK. The Law and Political Science Section Committee may, based on the number of TDK papers received and their topic, merge some of the planned sessions/topics or create additional ones, so that the TDK paper may be assigned to a different session than the one indicated by the author(s) during registration. **The condition for starting an independent session is the receipt of at least 6 TDK papers in the given topic**, on the condition that at least 5 of the 6 to 15 papers will be presented at the OTDK. If the number of TDK papers to be presented in a given session is fewer than five, that session may be merged with another session at the discretion of the Chair of the Section Committee. The organizing institution, with the agreement of the Section Committee, reserves the right to redirect submissions with content that does not align with the Section's field of study to another session of the National Student Research Conference that is more appropriate for the topic, with thanks for the application.

The final sessions and the classification of TDK papers are determined by the Law and Political Sciences Section Committee; students will be informed via the OTDT online system no later than 29 January 2027.
